- A. Federal Supply Classes with Authorization Remarks
- B. National Stock Number Index

Section I

General

1. Purpose

This Common Table of Allowance (CTA) is to be used as an authorization document under provisions of AR 7 I—13. Additional documentation for authorization is not required.

2. Scope This CTA provides flexible Bases of Issue which may be used to acquire selected items of expendable/durable equipment and provides guidance to using units for determining initial issue and stockage quantities of expendable/durable items required to accomplish their mission.

3. Application

This CTA applies as appropriate to TOE! TDA/JTA units/activities Army-wide and to individuals therein.

4. Explanation of terms

a. Expendable items.

(2) Items not consumed in use with unit price of ~~\$50.00~~ \$100.00 or less not otherwise coded “N” or “D” in the Army Master Data File (AMDF).

(3) Items of office furniture assigned Federal Supply Classification (FSC) 7110, 7125, and 7195 with a unit cost of less than \$300.00.

b. Durable items. Items which are not consumed in use retain their original identity but are not categorized as nonexpendable or expendable. These are coded “D” in the AMDF, and include nonconsumable components of sets, kits, and outfits and assemblages; all hand tools with unit price greater than \$5 (Federal Supply Classes (FSC) 5110, 5120, 5130, 5133, 5136, 5140, 5180, 5210, 5220, and 5280); and other nonconsumable items with a unit price in excess of \$50.00 not otherwise coded nonexpendable. Commercial and fabricated items similar to items coded “D” in the AMDF are considered durable. Durable items in this table are identified by a “D” annotated at the left hand margin in the space preceding the NSN.

5. Abbreviations

Abbreviations used in this table are in accordance with AR 310—50. Prefixes for vessels are in accordance with chapter 2 of TM 55-500 and appendix 0 of CTA 50-909.

6. Special Instructions

a. Items listed in this table will not be included in TOE/MTOE/TDA/JTA or other CTA.

b. Bases of Issue or usage factors for expendable/durable items listed in table 1 of section II have been developed for determining initial issue and initial stockage levels. Determination of replenishment quantities (for the expendable/durable items listed herein) will be based on demands and anticipated requirements. Quantities shown herein may be increased by no more than 10 percent without approval of the respective Army Commodity Manager or Service Item Control Center. Prior to acquisition, quantities over the 10 percent increase require approval of the Army Commodity Manager or Service Item Control Center.

c. The factors shown as BOL in this CTA are to be used as a guide for determining initial issue stockage quantities of the item required to accomplish the unit’s mission. As an example, the computation in figure 1 below reflects the quantity required by a 1500 individual force for 90 days using the BOL “1 per 100 individuals per month”:

1500	Number of personnel
x3	Number of months
4500	Total personnel months
±100	Personnel factor
45	
x.1	Quantity factor
4.5	Items Required for stockage level

Figure 1. Computation for a 1500 Individual force for 90 days

d. Nonstandard expendable religious education materials (as listed in the unified Catholic, Jewish or Protestant religious education curriculums and the U.S. Army Chaplain Board Supplement), chapel program folders, communion hosts and host

* This table supersedes CTA 50-970, 30 November 1988.

wafers may be requisitioned and procured as required.

e. Appendix A provides guidance pertaining to authorizations of expendable/durable items in instances where it is impracticable to compile meaningful Bases of Issue. Appendix A should be consulted first when using this CTA.

f. Appendix B provides a national stock number index with an item description.

g. Any item listed in this CTA appearing on the AMDF with an ARC of "N" (nonexpendable) will not be accounted for on property books. If the item is identified by a "D" annotated at the left-hand margin in the space preceding the NSN in the CTA it will be accounted for in accordance with AR 710-2. If the item is not identified as durable, it is to be considered expendable.

7. Related publications

The following publications will be used for reference purposes:

a. AR 1-75, Administrative and Logistical Support of Overseas Security Assistance Organizations

b. AR 37-111, Working Capital Funds-Army Stock Fund Uniform Policies, Principles, and Procedures Governing Army Stock Fund Operations

c. AR 310-3171-31, Management tern for Tables of Organization and Equipment (The TOE System)

d. AR 7 1-13, The Department of the Army Equipment Authorization and Usage Program

e. AR 708-1, Cataloging and Supply Management Data

f. AR 7 10-2, Supply Policy Below the Wholesale Level

g. AR 735-5, Basic Policies and Procedures for Property Accounting

8. Responsibilities

a. The Director, U.S. Army ~~Equipment Authorizations Review Agency~~ Force Integration Support Agency is responsible for establishing policies and procedures for this table, ~~subject to U.S. Army Force Development Support Agency approval~~

b. Major Army Commanders will ensure that-

(1) Expendable/durable items listed herein are removed from all authorization documents for which they have proponenty, and that the CTA is listed in Section I of these documents.

(2) Requisitions for expendable/durable items listed separately in section II or included in Federal Supply Classes in appendix A are restricted to items with an acquisition advice code which does not prohibit issue and is reflected in the Army Master Data File or the Army Reader Microfilm System.

(3) Units/activities requisition items and quantities included herein only when they are able to receive, store, maintain, and utilize same. Economical use of expendable/durable items at all echelons of command is in accordance with mission assignments and consistent with supply economy programs.

(4) Requirements for expendable/durable items which exceed by 10 percent the allowances shown in this CTA are approved by the applicable Army Commodity or Class Manager prior to acquisition.

(5) Acquisition and use of items in this CTA are restricted to the minimum number of types of similar items.

(6) Expendable/durable items are obtained and maintained by using units and activities in accordance with supply procedures prescribed in those regulations listed in paragraph 7.

c. The Commanders of the AMC Major Subordinate Commands and the Commander/Directors of Service Item Control Centers are responsible for-

(1) Reviewing, for purposes of approving or disapproving, all referrals regarding allowances for items not included herein and those submitted in accordance with paragraph 6b.

(2) Announcing through supply information letters of new expendable/durable items entering the supply system, with their appropriate Basis of Issue or usage factor, pending inclusion of these items in the next change or revision to this CIA.

(3) Submitting to the U.S. Army ~~Equipment Authorizations Review Agency~~ Force Integration Support Agency, all changes pertinent thereto under provisions of AR 71-13.

(4) Insuring that-

(a) Expendable/durable items included herein are recommended for deletion from proposed TOE/MTOE/TDA/JTA during technical review of these documents if the Basis of Issue or usage factor for the items can be used by the TOE/MTOE/TDA/ JTA unit/activity. If the Basis of Issue or usage factor cannot be used, develop one

which can be used and furnish it to the U.S. Army ~~Equipment Authorizations Review Agency~~ Force Integration Support Agency in accordance with (3) above.

(b) Authorization of items in this CTA is restricted to the minimum number of types of similar items.

(c) Sterling silver, silver plated and luxury type items are not included in this CIA.

(d) All items ~~listed~~ in this CTA are coded as expendable "X" or durable "D" in the AMDF.

d. The Director, U.S. Army Equipment Authorizations Review Agency is responsible for the update of this CTA.

9. Implementation

All the necessary changes to authorization documents, supply catalogs, property accountability records, and other applicable Department of the Army publications must be completed as soon as practicable subsequent to receipt of this CTA.

10. Allowance Modifications

Requests for additions or modifications to allowances in this table will be submitted through command channels to Director, U.S. Army ~~Equipment Authorizations Review Agency~~, ATTN: DALO-EARA-P-Force Integration Support Agency, ATTN: MOFI-TED-E, Washington, DC 20310-0519-Fort Belvoir, VA 22060-5587

11. User Comments

Users of this publications are encouraged to submit recommendations to improve the publication. Comments should be prepared using DA Form 2028 (Recommended Changes to Publications and Blank Forms) and forwarded direct to Director, U.S. Army ~~Equipment Authorizations Review Agency~~, ATTN: DALO-EARA-P-Force Integration Support Agency, ATTN: MOFI-TED-E, Washington, DC 20310-0519-Fort Belvoir, VA 22060-5587
